

Enhance without exaggeration

The Cosmedic Skin Clinic at 98 Marine Parade Southport is an innovation. With its private hospital exclusive to Dr John Flynn's cosmetic surgery practice, it ensures patients receive the best care possible with the shortest possible downtime.

Dr Flynn is a former president and current chief executive officer of the Australasian College of Cosmetic Surgery. He is in constant demand to consult, lecture, and educate throughout Australia, Europe, Asia, and New Zealand.

The Cosmedic team includes expert aesthetic nurse practitioners. These skilled professionals are experienced in all aspects of clinical treatments and skin care cosmeceuticals. Certified as advanced cosmetic injectors they constantly update techniques, add new products, and utilise technology by attending training conferences here and overseas.

The Cosmedic clinic and day surgery is fitted with state of the art equipment. This includes lasers to treat specific skin problems such as pigmentation, birthmarks, blemishes, and remove tattoos. All operators are accredited and licensed. Dr Flynn and his team aim to enhance not exaggerate through a range of surgical and non-surgical procedures.

Clients are offered a complimentary Visia facial skin analysis. The special ultraviolet camera shows what is happening under the skin and how best to treat it. There is a complete range of TGA approved injectables plus cosmeceutical skincare and mineral make up products. Visit www.cosmedic.com.au or phone 5555 7888 for more information about ethical cosmetic treatments.
